Mandar Desurkar

+91 8073118693 - mandardesurkar3@gmail.com - LinkedIn - Portfolio - Bangalore

Summary — Associate Product Manager with 2.5+ years of experience owning **AI-powered 0→1 products** with cross-functional teams, from product strategy, PRDs and roadmaps to launch, growth and monetization. Grew two agritech apps to a combined **250K+ installs**, **tripled trial conversion** through funnel optimization, and shipped **computer vision** disease diagnosis and livestock valuation, satellite farm monitoring, and a crop recommendation engine. Built the CRM and last-mile stack behind **Rs. 1 Cr+ of sales a month**.

Education

M. S. Ramaiah Institute of Technology, Bangalore **01/2021 - 07/2025**
B.E. in Information Science and Engineering | CGPA: 8.30

Experience

Associate Product Manager - Silo Fortune Private Limited **09/2025 - Present**

Kissan Sampurna & Gau Sampurna Apps: 0→1 Launch & AI Features

- Led the launch of two farmer apps with a **15-person team** (Engineering, Design, Data Science) to **250K+ combined installs** and 25K+ MAU, and designed the V1 UI/UX hands-on in Figma, from user flows to developer-ready screens.
- **Shipped AI-powered satellite monitoring**, enabling farmers to geotag field boundaries on smartphones to track crop health (via vegetation indices), disease risks, and irrigation needs across their entire farm in **13 languages**, peaking at **9.8K+ MAU** and **1.6K+ DAU**.
- Architected a no-code **crop recommendation engine** that ranks each farmer's **top 5 of 100+ crops** across **655K+ farm profiles** by climate zone, soil, budget, and rotation, reaching **7.7K+ MAU** at peak.
- Integrated **computer vision models** that diagnose crop diseases with their **severity stage** and **20+ cattle diseases** from one photo, and estimate cattle price, BCS, and dung score; crop diagnosis peaked at **4.8K+ MAU**.
- Grew both apps into a one-stop farmer platform with a **32+ SKU** marketplace, weather alerts, and market price forecasts.

Kissan Sampurna & Gau Sampurna Apps: Growth & Monetization

- Defined the **freemium monetization model**, keeping core advisory free to drive adoption while gating AI diagnostics behind a paid subscription.
- Restructured onboarding using Amplitude drop-off funnel analytics, lifting install-to-signup conversion by **3%**.
- **Tripled onboarding-to-trial conversion (2.4% → 7.2%)** with redesigned paywalls and behaviour-triggered engagement nudges, and raised trial-to-paid **from 27% to 30%**.

Internal Sales CRM & Telecalling Platform

- Delivered a 0→1 in-house CRM replacing legacy Excel tracking for **150+ telecallers**, now powering **Rs. 1 Cr+ in monthly sales** across **130K+ leads/month**.
- Automated lead capture from D2C web and app channels for the **32+ SKU** catalog, following each customer from first touchpoint to repeat purchase.
- Engineered **rule-based lead routing** by agent language, region, and lead source, matching every farmer with a local, same-language agent to sustain **9% lead-to-sale conversion**.
- Integrated Exotel click-to-call, auto-call recording, and automated WhatsApp follow-up flows, eliminating manual dialing and **saving 6,000+ agent-hours/month** (~40 hours/agent).

Sampurna Rider App & Outlet ERP: Last-Mile Logistics & Operations

- Drove the 0→1 build of a custom rider app and outlet ERP, from PRD to UI/UX prototypes, replacing manual order fulfillment with end-to-end tracking from CRM sale to doorstep delivery.
- Architected serviceability-based order routing across **98 outlets in 4 states**, while piloting algorithmic rider assignment to eliminate manual order allocation by outlet managers.
- Deployed the rider mobile app to **100+ in-house riders** handling **9K+ deliveries/month**, with in-app map navigation, photo + 4-digit OTP proof of delivery, and instant SMS/WhatsApp updates.
- Digitized doorstep payment collection via cash and dynamic in-app UPI QR codes, reconciling **Rs. 3L+ in daily collections** against delivered orders.
- Designed a closed-loop delivery disposition flow escalating cancellations and postponements back to the CRM for verification, **cutting order cancellations by ~8%** and lifting deliveries per rider.

Product Management Intern - AltQube **06/2023 - 09/2025**

- Launched a 0→1 hyper-personalized wealth management platform (web & mobile) with a **15-member cross-functional team** of engineers, designers, data scientists, and economists, scaling AUM past **Rs. 1 Cr**.
- Owned V1 product design end-to-end in Figma, taking **80+ screens** from research-backed user flows and wireframes to high-fidelity interactive prototypes.
- Co-developed a SEBI-compliant **AI recommendation engine** analyzing **12+ investor parameters** (risk tolerance, financial goals, behavioral patterns) to deliver real-time portfolio suggestions in the "Build Your Own Portfolio" feature.
- Unlocked direct in-app investing by connecting **9 fintech partners** (Razorpay, Signzy, CAMS, KFintech, CVL, MF Central and 3 others) and **42 AMCs**, documenting **40+ APIs** across equity execution, mutual fund processing, and e-KYC.

Beyond Work

Former International Athlete, Team India - Open Water Swimming **2013 - 2020**

- Competed professionally for **7+ years**, representing India at the **World Open Water Championships 2018** (Israel) in the 5 km event against 200+ elite athletes from 50+ countries.
- Led the **Indian National Relay Team** at international competition.
- Won **3 National Gold**, 2 Silver, and 1 Bronze medals in open water swimming.
