Summary

Associate Product Manager with 2.5+ years of experience owning **AI-powered 0→1 products** with cross-functional teams, from product strategy, PRDs and roadmaps to launch, growth and monetization. Grew two consumer mobile apps to a combined **250K+ installs**, **tripled trial conversion** through funnel optimization, and shipped **computer vision** disease diagnosis and livestock valuation, satellite farm monitoring, and a crop recommendation engine. Built the CRM and last-mile stack behind **Rs. 1 Cr+ of sales a month**.

Experience

Associate Product Manager - Silo Fortune Private Limited — 09/2025 - Present

Kissan Sampurna & Gau Sampurna Apps (0→1 Launch & AI Features)

- Led a **15-person team** (Engineering, Design, Data Science) to launch two farmer apps to **250K+ combined installs** and 25K+ MAU, and designed the V1 UI/UX hands-on in Figma, from user flows to developer-ready screens.
- **Shipped AI-powered satellite farm monitoring** in **13 languages**: farmers geotag field boundaries on their phone to track crop health (vegetation indices), disease risk, and irrigation needs; peaked at **9.8K+ MAU** and **1.6K+ DAU**.
- Architected a no-code **crop recommendation engine** ranking each farmer's **top 5 of 100+ crops** across **655K+ farm profiles** by climate zone, soil, budget, and rotation; peaked at **7.7K+ MAU**.
- Integrated **computer vision** for one-photo diagnosis of crop diseases (with **severity stage**) and **20+ cattle diseases**, plus cattle price, BCS, and dung score estimates; crop diagnosis peaked at **4.8K+ MAU**.
- Grew both apps into a one-stop farmer platform with a **32+ SKU** marketplace, weather alerts, and market price forecasts; Gau Sampurna's in-app D2C store alone generates **Rs. 1L+ in monthly revenue**.

Kissan Sampurna & Gau Sampurna Apps (Growth & Monetization)

- Defined the **freemium monetization model**: free core advisory to drive adoption, with AI diagnostics behind a paid subscription.
- Restructured onboarding from Amplitude funnel drop-offs, lifting install-to-signup conversion by **3%**.
- **Tripled onboarding-to-trial conversion (2.4% → 7.2%)** with redesigned paywalls and behaviour-triggered nudges, and raised trial-to-paid **from 27% to 30%**.

Internal Sales CRM & Telecalling Platform

- Delivered a 0→1 in-house CRM replacing Excel for **150+ telecallers**, now handling **130K+ leads** and **Rs. 1 Cr+ in sales a month**.
- Automated lead capture from D2C web and app for the **32+ SKU** catalog, following each customer from first touchpoint to repeat purchase.
- Engineered **rule-based lead routing** by language, region, and source, pairing each farmer with a local, same-language agent.
- Integrated Exotel click-to-call, call recording, and automated WhatsApp follow-ups, ending manual dialing and **saving 6,000+ agent-hours/month** (~40/agent).

Sampurna Rider App & Outlet ERP (Last-Mile Logistics & Operations)

- Drove the 0→1 build of a rider app and outlet ERP from PRD to UI/UX prototypes, replacing manual fulfillment with end-to-end tracking from CRM sale to doorstep.
- Architected serviceability-based order routing across **98 outlets in 4 states**, and piloted algorithmic rider assignment to remove manual allocation by outlet managers.
- Deployed the rider app to **100+ in-house riders** handling **9K+ deliveries/month**, with map navigation, photo + OTP proof of delivery, and instant SMS/WhatsApp updates.
- Digitized doorstep payments (cash and dynamic UPI QR), reconciling **Rs. 3L+ in daily collections** against delivered orders.
- Designed a closed-loop disposition flow escalating cancellations and postponements to the CRM for verification, **cutting cancellations by ~8%** and lifting deliveries per rider.

Product Management Intern - AltQube **06/2023 - 09/2025**

- Launched a 0→1 hyper-personalized wealth management platform (web & mobile) with a **15-member team** of engineers, designers, data scientists, and economists, scaling AUM past **Rs. 1 Cr**.
- Owned V1 product design end-to-end in Figma: **80+ screens** from research-backed user flows and wireframes to high-fidelity interactive prototypes.
- Co-developed a SEBI-compliant **AI recommendation engine** using **12+ investor parameters** (risk tolerance, goals, behaviour) for real-time portfolio suggestions in “Build Your Own Portfolio”.
- Unlocked in-app investing by connecting **9 fintech partners** (Razorpay, Signzy, CAMS, KFintech, CVL, MF Central +3) and **42 AMCs**, documenting **40+ APIs** for equities, mutual funds, and e-KYC.

Beyond Work

Former International Athlete, Team India - Open Water Swimming **2013 - 2020**

- Competed professionally for **7+ years**, representing India at the **World Open Water Championships 2018** (Israel) in the 5 km event against 200+ elite athletes from 50+ countries.
- Led the **Indian National Relay Team** at international competition.
- Won **3 National Gold**, 2 Silver, and 1 Bronze medals in open water swimming.

Education

M. S. Ramaiah Institute of Technology, Bangalore **01/2021 - 07/2025**

B.E. in Information Science and Engineering | *CGPA: 8.30*
